

Plant keeper (part-time)

Your role

As our plant keeper, you will be in the lead of keeping our plants healthy and green in the indoor and outdoor spaces of our customers. You will perform maintenance such as watering, pruning, trimming, repotting etc. We will learn you everything about our efficient and eco-friendly maintenance and how to deal with all sorts of plants. We will give you a lot of responsibility and lots of opportunities to innovate our plant care service together.

Our plant subscriptions always come with maintenance. Because we are connected to top-notch parties in the global plant industry in the world, we are able to get the latest innovations. In this way, we can optimize our maintenance by having the highest-quality soil, smart systems and eco-friendly care products.

About you

- You are passionate about plants
- You are enthusiastic to create healthier and happier indoor spaces with the use of plants
- You speak English fluently
- You are an excellent communicator
- You like to learn new things, fast
- You are proactive and work independently
- You are physically able to carry equipment and plants
- You are curious and not scared to share your opinion

Our offer

- Being part of a young and dynamic company
- Having full ownership in your role and responsibilities
- An opportunity to learn on the job
- Contract length: permanent
- Hours per week: 16-24 hours, up to full time (from Q4)
- Competitive salary

About PLNTY

Did you know that plants increase your mood? And make you less stressed? And increases your concentration & creativity? There are so many proven positive effects of plants on people, that PLNTY is on the mission to reconnect city dwellers with nature by bringing nature indoors.

We are PLNTY: a Hong Kong company founded in 2020. We empower commercial spaces to integrate stylish and curated plant design with the use of lease subscriptions.

Apply now

Apply now by sending an email to our founder Madelon (madelon@plnty.life), with your resume and short motivation explaining why you are the perfect candidate.

Let's make plants work together!
